

Canebot is a startup selling an exclusive range of sugarcane-based beverages.

Direct-To-Consumer
Brands, FMCG, Food & Beverages

Basic Information

Co-founded by Milind and Kirti Datar, Pune-based Canebot brings an exclusive range of cane juice based natural beverages. Their product named GannaPanna is a combination of mango panna and sugarcane juice. These contain no antioxidants and preservatives and come with a shelf life of six days in refrigeration. One can buy pack of six bottles of GannaPanna from their website or get the same from third party sellers like Big Basket, Imagicaa, Zomato, Pingori Farms among others. They also come with

immunity shots that customers can subscribe to on a three and six-month subscription plan.
